NET ZERO &
GREEN BUILDING EXPERTS

OUR MISSION

To transform healthcare ideas into high-performing, sustainable and financially responsible healthcare facilities through integrated planning, design and consulting.

We partner with healthcare promoters, institutions and stakeholders to deliver solutions that balance clinical excellence, operational efficiency, capital investment, patient experience and long-term sustainability.

Our multidisciplinary approach brings strategy, planning, architecture, engineering, technology and operations together—helping clients build healthcare facilities that are smarter to operate, easier to adapt and stronger in performance.

OUR VISION

To shape the future of healthcare infrastructure through intelligent, sustainable and high-performance environments that make quality healthcare more accessible, affordable and future-ready.

We envision healthcare facilities that go beyond buildings—facilities that perform better, consume less, adapt faster and serve people better.

By integrating global healthcare planning principles, technology, sustainability and human-centred design, we aim to create healthcare infrastructure that delivers lasting value for patients, providers, communities and investors.

OUR DESIGN PHILOSOPHY

Design with purpose. Plan for performance. Build for the future.

At Hospacx, we believe great healthcare design is not simply about how a hospital looks—it is about how well it works.

PATIENT-CENTRED

Design around dignity, safety, comfort, accessibility and the complete journey.

SUSTAINABLE BY DESIGN

Reduce energy, water, material consumption and environmental impact without compromising care.

FUTURE-READY & FLEXIBLE

Plan for changing technologies, clinical models, capacity requirements and future expansion.

HIGH PERFORMANCE

Optimise clinical workflows, staff efficiency, operational performance and lifecycle value.

AFFORDABLE & VALUE-DRIVEN

Make every square metre, every system and every investment work harder.

GLOBALLY INFORMED, LOCALLY RELEVANT

Apply international best practices and global healthcare benchmarks while responding to local context, regulations, resources and operational realities.

**WE DON'T JUST DESIGN HOSPITALS.
WE DESIGN HEALTHCARE INFRASTRUCTURE THAT PERFORMS.**

ABOUT US

Hospaccx Healthcare Business Consulting Pvt. Ltd. stands as a beacon of global healthcare consulting excellence, guiding our growth and innovation since 2006.

Empower stakeholders to transform healthcare ecosystems and **enhance patient outcomes**. Specializing in a comprehensive spectrum of services across **healthcare needs, from conceptualizing and designing to implementing**, we seamlessly blend visionary ideas with **practical solutions**. From architectural marvels to financial strategies, we provide a diverse array of expertise tailored to your unique demands.

Our pioneering approach revolves around one idea: **patient-centric, cutting-edge healthcare revolutions** that transcend boundaries. With a team of seasoned professionals and a network of industry alliances, we orchestrate **success stories** in hospitals, clinics, and specialized healthcare facilities. Join hands with us on a path to elevate healthcare standards and redefine possibilities for **healthier futures worldwide**.

WHY HOSPACCX

RIGHT MIX OF EXPERTISE

- Healthcare Planners
- Architects & Interior Designers
- MEP & Structural Engineers
- Medical Equipment Planners
- NABH | JCI | IPHS Consultants
- Project & Cost Consultants

END-TO-END SOLUTIONS

- Feasibility & DPR
- Planning & Architecture
- Medical Equipment Planning
- MEP & Engineering
- Project Management
- Commissioning Support

COMPLIANCE & QUALITY ASSURANCE

- NABH | JCI | NBC | IPHS
- FGI | HTM & other global norms
- Safety, quality & regulatory compliance at the core

DEEP HEALTHCARE FOCUS

- In-depth understanding of clinical workflows
- Patient-centric & future-ready designs
- Compliance-driven approach

INNOVATIVE & FUTURE-READY DESIGNS

- Technology-enabled planning
- Sustainable & green buildings
- Smart, efficient & healing environments

PROVEN TRACK RECORD

- 450+ projects delivered
- On-time delivery
- Happy clients across India, Africa, Middle East & SAARC countries

VALUE THAT MATTERS

- Optimum utilization of space
- Cost-effective solutions
- Better ROI for our clients

COMMITMENT THAT BUILDS TRUST

- Transparent processes
- Ethical practices
- Long-term client relationships
- Dedicated after-sales support

GLOBAL PERSPECTIVE, LOCAL UNDERSTANDING

- International exposure with local regulatory expertise
- Culturally sensitive & context-specific designs

OUR SERVICES

01

HOSPITAL ARCHITECTURE, PLANNING & DESIGNING

We design healthcare spaces that are function, safe, efficient and future-ready

Designing Tomorrow's Healthcare Environments With Intelligence And Care.

SCOPE / WHAT WE DO

Hospital Planning & Designing

Structural Design

Medical College Architecture Planning

Mechanical Electrical & Plumbing (mep) Design

Turnkey / Architecture Design

Architecture Drawing Review

Drawing Review

02

HOSPITAL MANAGEMENT CONSULTANCY

We help you make informed decisions and build sustainable healthcare businesses.

Insight-led Strategies For Viable, Efficient And Future-ready Healthcare.

SCOPE / WHAT WE DO

Hospital Market & Financial Feasibility

Hospital Assessment Study

Commissioning Assistance

Internal & External Audit

Fund Raising

Accreditation

03

MEDICAL EQUIPMENT PLANNING

We help the right equipment, in the right place, with the right infrastructure and workflow.

Right Equipment. Right Place. Right Performance. Right Value.

SCOPE / WHAT WE DO

Department-wise Equipment Planning

Equipment Specifications & Budgeting

Space & Layout Planning

Technology & Workflow Integration

MEP & Utility Requirements

Hospital Digitalization

04

HOSPITAL OPERATIONS & MANAGEMENT

We help you run efficient, patient centric and high-performance healthcare operations.

Better Processes. Happier Patients. Stronger Performance.

SCOPE / WHAT WE DO

Hospital go live service

Performance improvement

Operational Planning & SOPs

Policies Systems & Compliance

Workforce & Process Management

Quality & Patient Safety

05

HOSPITAL PROJECT MANAGEMENT CONSULTING

We ensure your projects are delivered on time, on budget and to the highest quality.

PLAN SMART. Execute Better. Deliver With Confidence.

SCOPE / WHAT WE DO

Project Planning & Scheduling

Quality Cost Risk Management

Design & Construction Management

Testing Commissioning & Handover

Procurement & Vendor Management

GLOBAL NORMS WE FOLLOW FOR HOSPITAL PLANNING & DESIGN

HEALTHCARE STANDARDS

NABH

JCI

IPHS

HTM

FGI

Global best practices for quality, patient safety & clinical excellence.

BUILDING CODES & REGULATIONS

- NBC (National Building Code)
- IBC (International Building Code)
- Eurocodes
- Local Development / Building Bylaws

Ensure structural integrity, functional design & compliance with local laws.

FIRE & LIFE SAFETY STANDARDS

- NFPA Standards (National Fire Protection Association)
- Local Fire Codes & Life Safety Codes

Designing safe environments with effective fire prevention, detection & evacuation systems.

ENGINEERING STANDARDS

- HVAC Standards (ASHRAE, ISHRAE)
- Electrical Standards (IEC, IS)
- Plumbing Standards (IS, IPC)
- Medical Gases Standards (NFPA 99, HTM 02-01)
- Lifts & Escalators Standards (IS, EN, NBC)
- Structural Standards (IS Codes, ACI, Steel Codes)

Engineering systems designed for performance, safety & reliability.

INFECTION CONTROL GUIDELINES

- WHO Guidelines
- CDC Guidelines
- Healthcare Infection Prevention Guidelines

Reducing infection risks through evidence-based design & protocols.

ACCESSIBILITY STANDARDS

- ADA Standards (Americans with Disabilities Act)
- National Accessibility Standards (CPWD / ISO / Local Codes)

Ensuring universal access, dignity & comfort for all users.

SUSTAINABILITY STANDARDS

- LEED (Leadership in Energy & Environmental Design)
- IGBC (Indian Green Building Council)
- BREEAM (Building Research Establishment Environmental Assessment Method)
- Green Healthcare Standards

Resource-efficient, eco-friendly designs for a healthier planet.

SPECIALIZED CLINICAL AREA STANDARDS

- Operation Theatres (OT)
- ICU / NICU
- Cath Lab
- MRI / CT / PET
- Radiation Oncology
- Laboratory
- Blood Bank
- IVF & Fertility Centers
- Dialysis Units
- Pharmacy & CSSD
- Emergency Department and many more...

Functional planning based on clinical workflow, safety & technology needs.

BIOMEDICAL WASTE & ENVIRONMENTAL REGULATIONS

- Biomedical Waste Management Rules
- Pollution Control Norms
- Environmental Impact Assessment (EIA)
- Water & Air Quality Standards
- Hazardous Waste Management

Responsible design & management for a cleaner, safer environment.

EQUIPMENT-SPECIFIC & RADIATION SAFETY STANDARDS

- Equipment Installation Standards
- Electrical & Mechanical Safety Standards
- Radiation Safety Standards (AERB, NCRP, ICRP)
- Imaging Equipment Safety Guidelines
- Calibration & Maintenance Standards

Ensuring safety, accuracy & compliance across all equipment & radiation-based services.
